Today you will be taking the Ohio American Government Practice Assessment.

There are several important things to remember:

1. Read each question carefully. Think about what is being asked. Look carefully at graphs or diagrams because they will help you understand the question. Then, choose or write the answer you think is best in your Answer Document.

2. Use only a #2 pencil to answer questions on this test.

3. For questions with bubbled responses, choose the correct answer and then fill in the circle with the appropriate letter in your Answer Document. Make sure the number of the question in this Student Test Booklet matches the number in your Answer Document. If you change your answer, make sure you erase your old answer completely. Do not cross out or make any marks on the other choices.

4. For questions with response boxes, write your answer neatly, clearly and only in the space provided in your Answer Document. Any responses written in your Student Test Booklet will not be scored. Make sure the number of the question in this Student Test Booklet matches the number in your Answer Document.
5. If you do not know the answer to a question, skip it and go on to the next question. If you have time, go back to the questions you skipped and try to answer them before turning in your Student Test Booklet and Answer Document.

6. Check over your work when you are finished.

2. A state is considering an amendment to its constitution requiring that judges be appointed rather than elected. A supporter of the amendment makes the following statement:

Electing judges allows choices to be made on the basis of political influence, not merit. I believe that it is time to consider changing this practice to a system whereby judges are appointed by the governor and confirmed by the legislature.

Our State Bar (lawyers) Association supports this change because during election years, campaigning and fundraising for the election of judges delays the hearing of cases. This creates a backlog in the year following the election. Furthermore, a survey of voter habits by the State Election Commission reports that 60% of voters fail to vote for judges at all. Voters say they lack relevant criteria for making selections. The Commission has stated its support for the amendment in order to better assure that judges have been chosen on their merits rather than their appeal to special interests.
Explain why the use of the particular sources presented by the supporter of the amendment makes the supporter’s position credible. Be sure to refer to:

• the qualifications of the sources;
• the consistency (agreement) between the sources.

Write your answer in the Answer Document.
3. The 17th Amendment established the direct election of U.S. senators.
