

## Spring 2017 Released Items Crosswalk

This document identifies the Spring 2017 State Mathematics Test released items to their locations on the item level report in each grade and course. Districts and teachers can use this information as they analyze their spring 2017 test data at the district, school, teacher, and/or roster level. For easier usage, the crosswalk provides matches for both the Released Item to the Item Level Report and the Item Level Report to the Released Item.

Directions on how to generate an Item Level Report are available in the [ORS User Guide](#) starting on page 37.

### Matching the Released Item Number to the Item Level Report

<b>Grade 3</b>	
<a href="#">Released Item Number</a>	Item Level Report Number
<b>Multiplication and Division</b>	
5	13
